| IMPORTANT: PLEASE NOTE. To select correct replacement parts, it may be necessary to identify the code character for the engine by looking at the VIN (Vehicle Identification Number) located on the dash panel. For 1981 and newer cars, refer to the 8th digit of VIN for the correct engine code. |                 | Pressure - From Pump; Jan. 5, 2001 & Newer.....  |                 | 80444  |                 |

| IMPORTANT: PLEASE NOTE. To select correct replacement parts, it may be necessary to identify the code character for the engine by looking at the VIN (Vehicle Identification Number) located on the dash panel. For 1981 and newer cars, refer to the 8th digit of VIN for the correct engine code. |                 | Return .....                                      |                 | ✂80400  |                 |

### Alphabetical Listing

CAUTION: Its critical to know the production date as well as body and engine codes when servicing import vehicles. Japanese manufacturers often have mid-year production changes. Japanese model years, in most cases, end in August. ALWAYS check for the production date, usually located on a plate inside the front door or under the hood.
