

EDELMANN
ELITE

POWER STEERING COOLERS

Three generations of US manufactured, OE heritage combined with 100 years of dedication to quality in the automotive aftermarket leads to the new Edelmann Elite® Power Steering Coolers. This new line of coolers takes our Total Solution™ commitment to OE form, fit, and function and gives it a boost. These coolers are produced from OE equipment using the OE designs. We aren't just committed to OE form, fit, and function, we're actually producing it.

- **MANUFACTURED IN THE U.S.A.**
- **EXACT OE REPLACEMENT**
- **MANUFACTURED WITH OE EQUIPMENT**

OEF³TM

OE SPECIFICATION EQUIVALENT

Original mount designs
for a more accurate and
easier installation

Single tube construction to prevent
connection leaks and maintain a
consistent pressure across the cooler

OE cooling fin design
prevents road debris from
damaging tube and transfers
heat more effectively

Tube expansion used to hold fins in
place preventing solder and spacer
failure points

Finished, low carbon coolers are brazed and
coated to the OE spec to ensure durability and
resistance to corrosion
