EDELMANN ELITE

POWER STEERING COOLERS

Three generations of US manufactured, OE heritage combined with 100 years of dedication to quality in the automotive aftermarket leads to the new Edelmann Elite® Power Steering Coolers. This new line of coolers takes our Total Solution™ commitment to OE form, fit, and function and gives it a boost. These coolers are produced from Tier 1 machines to the original specifications. We aren't just committed to OE form, fit, and function, we're actually producing it.

- MANUFACTURED IN THE U.S.A.
- EXACT OE REPLACEMENT
- MANUFACTURED WITH TIER 1 MACHINES

OEF3™ GENUINE SPECIFICATION

Original mount designs for a more accurate and easier installation

Single tube construction to prevent connection leaks and maintain a consistent pressure across the cooler

Learn More & Find Applications

Original cooling fin design prevents road debris from damaging tube and transfers heat more effectively

Tube expansion used to hold fins in place preventing solder and spacer failure points

Finished, low carbon coolers are brazed and coated to ensure durability and resistance to corrosion
